## EMPLOYMENT

---

<b>Software Developer</b>	<b>Tectonic</b>	<b>March 2019 – March 2020</b>
---------------------------	-----------------	--------------------------------

- Developed internal resource projects adhering to wireframe designs and project requirements.
- Collaborated with team members on a React web app showcasing internal data in an agile environment.
- Maintained device compatibility implementing a mobile-first design approach.
- Implemented web accessibility to adhere to Web Content Accessibility Guidelines (WCAG).

---

<b>Produce Clerk</b>	<b>Harris Teeter</b>	<b>May 2016 – March 2018</b>
----------------------	----------------------	------------------------------

- Delivered superb customer service guiding customers to produce and offering product information.
- Resolved customer conflict by listening closely to problems, formulating possible solutions, and deciding on an ideal solution.
- Collaborated with associates to transfer produce from the delivery and the cooler to the sales floor to maximize produce shelf-life.

---

## PERSONAL PROJECTS

### React Portfolio Website

Live Website - <https://www.genebarra.dev>

View Code - <https://github.com/Gbarra9/React-Portfolio>

- Created a Single Page Application with React and Sass to showcase my information and projects.
- Utilized React Context to manage website's layout theme and incorporate React hooks for modern react concepts.
- Designed and wireframed the website using Figma.
- Integrated Google Analytics to track visitors and potential hiring managers.

### Shopping List Cart

Live Website - <https://shopping-cart-list.netlify.app>

View Code - <https://github.com/Gbarra9/Shopping-Cart>

- Developed a shopping list app built with HTML, CSS, and JavaScript allowing users to plan before arriving at the store.
- Maintained input data via local storage in the browser and applied filter functionality using uuidv4 library.

### Find My IP Address

Live Website - <https://findmyipaddress.netlify.app>

View Code - <https://github.com/Gbarra9/ip-address-tracker>

- Launched a find my IP address app built with HTML, CSS, JavaScript, and IPify API.
- Developed interactive map using LeafletJS and Mapbox.

---

## EDUCATION

---

<b>College Park, MD</b>	<b>University of Maryland,</b>	<b>Spring 2013 - December 2016</b>
-------------------------	--------------------------------	------------------------------------

Robert H. Smith School of Business

- B.S in Information Systems, December, 2016. GPA: 3.2

---
